**ADVANCED INTEGRATED Rpg**

Advanced, Integrated Rpg shows you how to take advantage of the latest technologies from within existing applications. A vast amount of business solutions based on IBM Power Systems that provides detailed, secure, reliable information. Not the means of following the old ways to bring up with the traditional methods that have proved. Solutions such as Excel spreadsheets, Adobe PDF files, and email are requirements for today's users, yet Rpg is viewed as incapable of fulfilling these needs without accompanying software that is not produced and often tested separately. This book goes to the bone to break through these obstacles and use common development tools to share information and create from complete solutions.

Regarding creation, your immediate action changes that have occurred in Rpg, E.E., such as free formatted coding, creating coding with prototyping, service programs, and available products. The book then introduces some of the basics of the Java programming language and the integration of Rpg with Java by creating with the capabilities of Rpg and diving deeper into the details of Java, which provides the basic building blocks for the rest of the chapters. Instead of trying to be aware to take advantage of all of the Java resources that are available through Rpg.

Most Rpg modernization books focus on the front-end or cover syntax and encapsulation, but they don't describe their capabilities to provide new enhancements. This book focuses on the back end by updating your reporting from green bar reports that are physically formatted to welcome documents that are distributed using email.

Advanced, Integrated Rpg will bring you right up to speed, providing modern-day solutions from within Rpg.

**With Advanced, Integrated Rpg, you will:**

- Update your Rpg/DB2 techniques to take advantage of what E.E. has to offer
- Be introduced to the Java programming language and how to equip it from Rpg
- Gain exposure to Open Source technologies and how to make them accessible to Rpg
- Learn how to create leading green bar reports to Excel spreadsheets and PDFs
- Discover how to automatically email reports using Rpg and JavaMail.

**About the Author**

**Thomas Snyder** is a senior programmer and has been developing Rpg applications since 1972. He is also a Self-Certified Java Programmer and has been working with Java since 2002.
