NETWORK DVR AND CAMERA SURVEILLANCE SYSTEM
QS408-411-5

Overview:
Even if you don't do numbers, you should know that the QS408-411-5 equals one great standard DVR plus dozens of quality features. This 8-channel DVR leaves economy-grade DVRs in the dust with its eight audio inputs, two USB ports, and eight surveillance cameras. That gives you ample space to capture important footage and effectively manage observation. Without any recording loss, the Multiplex feature allows you to simultaneously, Record, Watch live or recorded footage, Playback footage, Backup files, and Remotely monitor and manage your DVR on your computer network or the Internet. Record in full D1 on channels 1 and 2 and playback a large broadcast-quality image, or record in real-time CIF on all eight channels with a standard size image at playback. Back up your video files easily with a USB flash or hard drive, and maintain your important data. Instinctive to meet your needs, the user interface is simple to use and the included mouse and remote control make menu navigation stress-free.
